

Approved For Release 2003/10/29 : CIA-RDP80R01731R003400150002-1

UNITED STATES
DEPARTMENT OF THE INTERIOR
OFFICE OF THE SECRETARY
WASHINGTON 25, D. C.

JUL 24 1950

Secret

My dear Admiral Millenkoetter:

With reference to the petroleum and natural gas reports on foreign areas under the MIS program, the Bureau of Mines is in agreement that it can accept responsibility for this program involving in fiscal year 1951, eight sections 62-C and 6 Supplement V as designated.

It is estimated that the normal assignment of \$51,000 for the fiscal year 1951 will be sufficient to cover necessary costs to the Bureau of Mines. Every effort will be made to effectively accomplish this mission at a lesser cost.

It will be necessary that such detailed data as are available to the Munitions Board Petroleum Committee, applicable particularly to Supplement V be readily accessible to the Bureau of Mines personnel directly concerned. Proper security clearance will of course be obtained for the people required.

Sincerely yours,

C. Girard Davidson

25X1

Assistant Secretary of the Interior

Dear Adm. R. H. Millenkoetter
Director of Central Intelligence
Central Intelligence Agency
2430 E Street, N.W.
Washington 25, D. C.
